Wooden EPAL and UIC Pallets

We produce high-quality pallets up to 300,000 pieces per month in compliance with EPAL and UIC standard. Wooden pallet construction specifications can depend on the pallet's intended use: general, FDA, storage, chemical, export; the expected load weight; type of wood desired: recycled, hard, soft, kiln dried or combo (new & recycle); and even the type of fasteners desired to hold the pallet together: staples or nails. Worldwide shipping.

Wooden Collars for Pallets

Wooden Pallet Collars are well-known all over the world as the perfect packaging solution. For around 30 years different industries use this top quality sort of packaging (easy to assemble, height up to 2 m, small storage place, safe transportation of goods etc.) perfect to satisfy the needs of your company.

- Safe storage and transporting
 - Easy to assemble, quickly create a box of needed height (up to 2 m)
 - Takes small space in your storage place/warehouse when they are not in use
 - Long-lasting usage, can be re-distribute up to several times
- Can be useful for you or for your clients*
